**AMENDMENTS**

**In the Claims:**

No claims have been amended.

Claims 51-55 are pending and are listed following:

- 51.** A content provider, comprising:
- a storage system to store content;
  - a server connected to the storage system to serve the content to a local service provider which provides the content to multiple clients;
  - a network port adapted for connection to a first network, the server serving the content via the first network to the local service provider; and
  - a transmitter, responsive to the server, to transmit content over a second network to the local service provider.
